

One More Day

Oh Row me 'cross the river, I heard a maiden say
Oh take me to my lover, one more day

*Only one more day, me Johnny, One more day
Oh rock and roll me over, one more day*

For Johnny he's a rover, he says he'll sail away
He wants to leave the river, stay one more day

I've seen the sea birds flyin' Ashore from o'er the bay
I felt they was all cryin' one more day

He'll heave aloft the anchor and sail out from the bay
For I fear my love's a rover stay one more day

Oh sea birds get the warning which one and all obey
The tempest loud is storming cry one more day

Oh stay my John and tarry for just another day
'Tis you I want to marry stay one more day
